What is our mission?

We help government agencies, states, and organizations prepare for the future or – the unexpected – by analyzing the unknowns of their toughest mission questions.

What is it?

FutureScape is a modeling and simulation platform that creates digital replicas of large systems, such as entire cities or large industrial infrastructure.

Who is this for?

- Emergency Responders
- Telecom Director
- Transportation Officials
- Defense Personnel
- City Planner
- Corporate Strategy Officer

How does it work?

1. DATA
2. DATA SCIENCE
3. CLOUD COMPUTING
4. ARTIFICIAL INTELLIGENCE
5. USER IMMERSION

Demo facts

Within the digital twin, clients can experiment to solve tough, "what-if" problems in a controlled environment.

- 50025 — Buildings
- 443 — Telecom Towers
- 737 — Traffic Lights
- 1663 — Power Nodes
